Art Unit: 3634

1. Claims 4-66 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-64 of U.S. Patent No. 6,739,463. Although the conflicting claims are not identical, they are not patentably distinct from each other because the differences are considered to be modifications that would have been obvious to one with ordinary skill in this art.

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or

Art Unit: 3634

patent is shown to be commonly owned with this application.

See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 87-90, 93-96 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Yeh 6,029,833.

Note, front and rear uprights (11), front-rear stretchers (12), first and second laterally extending beams (21), merchandise display support element (display panel), and upright (22).

4. Claim 95 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly

Art Unit: 3634

point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 95 appears to be inaccurate. In that regard, it is not understood how the "upright" can be supported "solely" by the rack uprights, especially when "upright" is "coupling the laterally extending beams."

6. Claims 91-92 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 67-86 and 97-107 are allowable.

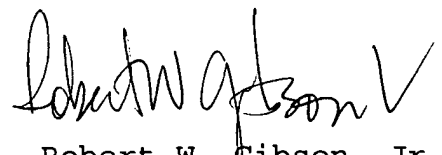

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert W. Gibson, Jr. whose telephone number is 703-308-2168. The examiner can normally be reached on M-F 7:30 to 4:00.
